

The Planting Rules A Living Document

PLANTING RULES

Remember the Primary crops are always in the center of the bag. The Secondary crops are on both sides of the center of the bag. We do use some crops as both Primary and Secondary. For example: beans and peas. ALL PRIMARY PLANTS HAVE COMPANIONS. **THEY ARE NEVER PLANTED ALONE!!** See the "**Planting Guides**" for those companions.

Do not purchase large 3" or 4" transplants if at all possible. Purchase only 6 or 8 packs. This would be packs that have 6 or 8 cells to a pack anywhere from 1" x 1" to 1 1/2" x 2 1/2" or 2" x 2". On average no larger than 2"x 2".

Those of you that have not submitted a VegList can now use the "**Planting Guides**" & "**Planting Schematic For Free Standing Bucket Gardens**" or "**Planting Schematic For Box Conversion Bucket Gardens**."

PLANT DIAGNOSIS

Do you have a plant challenge in your garden? See "**The Garden Master Organic Nutrient Application**" before you do anything else. Then use the "**Data Required For Plant Diagnosis**" form to submit your request for a diagnosis.

WARNING!!

It is very important that you pay very close attention and remember, if you change the system you change the results!!

KEEP CHECKING. THIS DOCUMENT WILL BE ADDED TO.

Where Do I Go To Ask My Questions?

If you have questions that are not answered in this Newsletter or on our website click on INFO@TheBucketGarden.com and do the following:

1. Type **INFO** in the Subject bar of your e-mail. Very Important!!

Type in the body of your e-mail the following:

2. Your Name
Your Address
Your City, Your State, Your Zip Code
Your Phone Number
4. Your Questions and Comments

Please do not send questions through the Shipping Cart Invoice System or the Website Contact System.
